Councillors Reports

Association Alumni Officer – Olivia Wiggins

What have I done since my last report?

A relatively quiet week. Still working on getting speakers for our semester 2 event and looking at ways of drawing Alumni back into town for St Andrews day. Conducting research for Alumni profiles.

What progress has been made on my manifesto?

I have been looking into recent graduates who have succeeded in various fields since leaving the university. The aim is to develop profiles to share with current students. This addresses my intention to celebrate the achievements of former students.

What do I hope to achieve by next report?

Gained access to the Students Association's LinkedIn page.

Why does what i'm doing matter to students, and how can they get involved?

As we enter internship and grad scheme application season, highlighting the career paths followed by former students could act as a useful source of guidance. Contact me at saalumni@ or Like the Alumni Sub-committee Facebook page!

Association Community Relations Officer – Morgan Morris

Since my last report, we have continued plans for Community Relations week (week 11), and plans to publicize student groups who go out into the community on our facebook page. I have called a meeting of POLIS (the political society forum) we are running a voter registration campaign by creating an informational video and holding drop in session for people to register to vote. This is going to be a competition to see which group can get the most people registered, you will have to track this on the google form Jamie has, so if you want it let him know. I attended community council this past week, and an meeting about waste reduction and recycling, which were both super productive and informative.

What progress has been made on my manifesto?

The above was all in my manifesto, and there are a few points that will come in later this semester.

What do I hope to achieve by next report?

By my next report, we should hopefully have some confirmed plans for Community Relations Week, and we hope to elect freshers and postgraduate representative to my committee as soon as possible, but we are still lacking applications.

Why does what i'm doing matter to students, and how can they get involved?"

This matters because it allows students to feel more integrated in the town and shows them there are things they can get involved with outside gown side of there time in St Andrews. As always any ideas, thoughts, questions please get in touch: comrels@st-andrews.ac.uk.

Association Environment Officer – Lauren Davis

What have I done since my last report?

It's been the busiest, but the best Green Week ever. We've had incredible attendance at all of the events, and we've had many students approach us to get involved following independent learning week.

What progress has been made on my manifesto? (if applicable)

The new Environment Hall Reps have just been trained on Wednesday of this week! The Environment Subcommittee has many plans to work with them on waste-free campaigns and energy-saving projects. Coming up soon, we're going to launch our Interhall Energy Competition, it has been completely redone, so we're expecting better results and more participation going forward.

If you've made progress, great, if you haven't, explain why and what you're doing instead.

What do I hope to achieve by next report? (What it says on the tin)

By my next report, we'll have done another fun collaborative event with Democrats Abroad St Andrews, and Sustainable Development Society on the Green New Deal. Also, we are going to be trying to get as many people as possible to fill out the new travel survey so we can make accurate estimations of individual carbon footprint for the wider university Carbon Management Plan. In addition to this, we plan to help Amnesty International with their Kenly Wind Farm project and petition to get the application seen through before its deadline in March. More on this later!

Why does what I'm doing matter to students, and how can they get involved? (As above)

We've had a number of students who want to get involved, so going forward and into next term we will be working with Estates/The Environment Team to get student reps from each university department to further implement 'Sustainability in the Curriculum.' More to come on that, and I'm sure we'll have more opportunities for students' as the semester goes on.

Association LGBT+ Officer – Parker Hansen

This week I've been: getting a number of new committee members, working on setting up support groups (a replacement for queerpeers, a manifesto point). Also working on developing better marketing strategies with my new marketing officer (and following the saint article) . Finally, we should have the Gay Saint committee together by this meeting.

Next week: I'll be continuing meetings with Ruth (AVP Div) and student services to work on: pronoun training, support groups, AU policy, possibly other things.

Association Lifelong and Flexible Learners Officer – Sandra Mitchell

Nothing to report

SSC Broadcasting Officer – Tom Groves

What have I done since my last report?

IT Services have restored internet access from the studio, so everything is running as normal. The stream is notably more stable than last year, and shows can submit changes to their page on our website via a Google form. A simple version of the STAR app is ready for iOS; we are now working on the Android version.

We hosted our first Bell Pettigrew session, which went very well, with around 70 people attending, both students and locals. The new committee show, Office Hour, is Mondays at 5pm, during which anyone can ask questions via listen.standrewsradio.com. The social media workshop was useful for the few who attended. Sounds of Sandy's is now on a break until after ILW.

What progress has been made on my manifesto?

Manifesto is now 49% complete. You can track progress at bit.ly/starfesto.

We are unable to make much progress until we receive the budget for this year.

What do I hope to achieve by next report?

We are waiting for the new budget before we can buy new headphones, microphone arms, and new screens for the studio. In the meantime, we are planning a live lounge in Rector's Cafe, and a social for show hosts.

We are also looking to develop our database of music, get now-playing song info displayed on the website, and take over management of some of Music is Love's equipment so that bands and event organisers have easier access to speakers, mixers, and microphones.

Why does what I'm doing matter to students, and how can they get involved?

These updates streamline and improve the process of hosting a radio show, and will build the sense of community within STAR. You can get involved by applying for a show (there are a few slots left, though most are at 9am), writing for The Record or Hearing Aid, making videos for starTV, or illustrating content for all of the above. We are always looking for people to perform at our events. Any questions email hello@standrewsradio.com

SSC Charities Officer – Frankie Borderie – No report submitted

SSC Debates Officer – Toni Valencia

What have I done since my last report? (This will be along the lines of stuff that goes in generally)

I have been working closely with the Union Debating Society Board of Ten in order to ensure that our public debates and competitive debate training are running

successfully. We had a very good turnout for the last few events as well as large interest expressed in our Facebook events. We also sent our teams to the first competition of the academic year, Edinburgh Cup, hosted in Edinburgh University. We are also finalising our last few details for the inter-varsity novice competition, Bogwall on October 19, 2019. Further, we have hosted the two internal competitions: the Pro-Am and Cubs. Also, I have been promoting our EGM which will be held this Wednesday, October 16, 2019. The UDS is looking for a Freshers' Representative and Serjeant-at-Arms.

What progress has been made on my manifesto? (if applicable)

Working on ensuring that a wide variety of speakers are invited to our public debates. As our constitution has been revised to reflect the intention to have a diversity of guest speakers, we are working on a system to ensure that different backgrounds and professions that are relevant to a debate are invited. This has been quite successful in the last few weeks, but we are ensuring that this remains true throughout the year.

If you've made progress, great, if you haven't, explain why and what you're doing instead.

I am still trying to figure out a way in order to secure back-up guest speakers to our events without offending them. Alternatively, I would like to create a system to finalise confirmation to ensure that last minute drop-outs of guest speakers do not occur as often. This is quite a difficult situation and issue, so I am working with the Board of Ten to figure out a solution. At this point of the academic year, I have implemented all of the points on my manifesto and now I am ensuring that they are constantly maintained and kept to a higher quality standard.

What do I hope to achieve by next report? (What it says on the tin)

I would like to have another non-alcoholic social before the next report which is a point I have outlined in my manifesto. Further, ensure another speaker skills training event occurs or at least preparation for it ready. Further, I would like to finalise collaborations with other societies for our upcoming events.

Why does what i'm doing matter to students, and how can they get involved? (As above)

As a subcommittee of the Union, every matriculated student is welcome to join our events for free, whether it be the public debates or competitive debate training. We want to ensure that students are intellectually challenged and to promote discussion and constructive discourse with one another. Come along to our competitive debate training on Wednesdays at 2:00pm in the Large Rehearsal Room of the Union! Join us this week for our Brexit Discussion Forum and hear our guest speaker panelists thoughts on the issues coming from a wide range of parties and organisations! Feel free to ask our panelists questions during the event as well!

SSC Design Team Convenor – Edward Spencer

"What have I done since my last report?"

(This will be along the lines of stuff that goes in generally)

- Worked on ensuring that projects are getting back on track
- Continued training the new volunteers
- Planned and marketed our EGM
- Planned meetings to discuss Halloween ideas with DoES

If you've made progress, great, if you haven't, explain why and what you're doing instead.

- Unfortunately, due to projector issues and the continuing Lightroom we have not yet planned our next class but hope to do so by the next report

What do I hope to achieve by next report? (What it says on the tin)

By the next report we will have run another class for volunteers as well as begun planning a Halloween event. We also will be making progress in our current projects.

- Plan our next class
- Continue to train the new volunteers and push forward with projects

Why does what I'm doing matter to students, and how can they get involved? (As above)"

Design Team is continuing to promote and facilitate creativity within the student body. Students can get involved by becoming volunteer designers by emailing sadt@st-andrews.ac.uk. They can also email sadt@st-andrews.ac.uk to express an interest in joining the committee in the forthcoming EGM this Thursday or by coming along to one of our classes

SSC Arts Festival Convenor – Holly Scrivener – No report submitted

SSC Member without Portfolio – Gavin Sandford

Nothing to Report

SSC ENTS Convenor – Paul Lancaster

"What have I done since my last report?"

Working through a review of how our health and safety training is conducted, documented and how the chain of responsibility works.

What progress has been made on my manifesto? (if applicable)

No manifesto as non-elected position - main goals this year are:

- Allow the smooth introduction of the new paid full-time position
- Revive ents publicity to help with recruitment and image (within and without industry)
- Establish and maintain a solid base of Ents to put on the many events we do each year and in future years

If you've made progress, great, if you haven't, explain why and what you're doing instead.

See above.

What do I hope to achieve by next report? (What it says on the tin)

Continue to coordinate with union staff as to how the new paid full-time tech position will integrate with our existing work. Continue the H&S review.

Why does what I'm doing matter to students, and how can they get involved? (As above)"

Every event: society, sub com, external body or university organized within the union commercial spaces is seen by the ents convener and results in the ents crew organizing tech/equipment/logistics requirements for over 200 events/year. Our work supports all these groups by putting on their events.

We're always really keen for more volunteers, we have crew meetings every Wednesday at 5 pm in the meeting room (where you sign up to help out) followed by training at 5:30 pm in the stage. If you're interested then just come along or email me at ents@st-andrews.ac.uk!

SSC Performing Arts Officer – Manaal Mahjoub

"What have I done since my last report?"

The first Performing Arts President's Forum is scheduled to be held this Friday which I'm really looking forward to. By the time of this meeting, auditions for Freshers' Drama Festival would have taken place (and hopefully have been a huge success!). On Thursday I attended the Byre Stakeholders Meeting with Shaina which was a great opportunity to learn more about the Byre, it's history, and how it operates. I also went to the Society Networking Event on Thursday, which was great fun. Congratulations to Markus and everyone else who brought the event to life!

What progress has been made on my manifesto? (if applicable)

At the networking event during the Performing Arts Round Table, I was able to let a few societies who aren't entirely familiar with the way Mermaids works that we can provide funding for any performing arts endeavour. I explained that one of the best ways to make the most of this opportunity is by proposing to us for a Fringe show. This ties in well with my manifesto point about inclusivity and wanting to reach out to other societies that may not think Mermaids is an option for them (when in reality it's an option for everyone!).

What do I hope to achieve by next report? (What it says on the tin)

I'm hoping to gain feedback at the Presidents Forum on anything that needs to be done to make sure affiliates are reaching their goals, and then use that feedback to shape the work I do for the rest of the semester.

Why does what I'm doing matter to students, and how can they get involved?

Being involved with Mermaids offers a creative outlet for many students, as well as the opportunity to learn valuable teamwork skills. Even simply being an audience member allows people to de-stress and escape the woes of student life for an hour or two. If you are interested in shadowing any aspect of productions (directing, producing, stage management, tech, costumes), we have a shadowing scheme set up. To find more information or to register, head to our website mermaidstheatre.com

SSC Societies Officer – Markus Lee – No report submitted

SSC Volunteering Officer – Lisa-Marie Husby

"What have I done since my last report?"

I have attended the societies networking event and met many societies we would like to collaborate with in the future. In addition we focused a lot on promoting World Mental Health Day on Tuesday 10th of October and showcasing how great volunteering can be for peoples mental health. We are also working on getting volunteers to a couple one-off events these next couple of weeks and get volunteers paired up with specific projects the have a more one-to-one approach.

What progress has been made on my manifesto?

In my manifesto I said that I wanted SVS to become more social and have more contact between the committee and the volunteers. I believe we are working towards that now with more regular e-mails, use of Facebook, social events (next one this coming Tuesday) and individual Facebook-groups for each project/project area.

What do I hope to achieve by next report?

By next report I hope to have all projects up and running smoothly and have a working e-mail list. Our webpage/technical situation is sub-par and it is really making all administration very difficult and time consuming.

Why does what i'm doing matter to students, and how can they get involved?

What I'm doing matters to students because SVS let them be a part of something bigger than themselves and give them the opportunity to give back to the community around them. It is also a great way to escape the bubble for a while and do something positive for someone else. People can get involved by applying to be a volunteer on our webpage yoursvs.org.uk or e-mailing svs@st-andrews.ac.uk

SSC Postgraduate Officer – Blake Purchase

Please find my report below:

What have I done since my last report?

Since my last report I have welcomed new committee members and arranged to have them debriefed on their roles.

What progress has been made on my manifesto? (if applicable)

Ball for winter graduations confirmed.

If you've made progress, great, if you haven't, explain why and what you're doing instead.

Ball all confirmed.

What do I hope to achieve by next report? (What it says on the tin)

Brief new members

Why does what i'm doing matter to students, and how can they get involved? (As above)"

A strong committee can deliver strong events and representation.

SRC Accomodation Officer – Nevena Tsaneva

"What have I done since my last report?"

Since I was co-opted as an Accommodation Officer, I have worked with my committee on editing this year's How to Rent Guide and adding new relevant sections to it, with an emphasis on financial support and sustainability. We are arranging a plan for Accommodation Week and are in the process of organizing events at halls and at the union, as well as looking at different advertising strategies to make them as popular as possible. I am working on arranging for the senior hall students to receive professional qualifications after having managed their committees and having their experience recognized in their diploma. I am working with Class Gift to figure out additional financial support to students in need and examining the possibility of collaboration during Accommodation Week.

What progress has been made on my manifesto? (if applicable)

As per my biggest goal, I have made the necessary changes to raise additional awareness of financial support for students struggling with high accommodation prices at the How to Rent Guide. I have also made myself fully available to students facing tenancy difficulties and given them access to relevant resources informing them of their rights. Additionally, I and the Association President have been speaking to a group of concerned students regarding Washstation and thinking of appropriate ways to pressure the corporation into improving their service.

If you've made progress, great, if you haven't, explain why and what you're doing instead.

What do I hope to achieve by next report? (What it says on the tin)

I hope to have a full Accommodation Week Graphic ready and to have all the relevant information for the How to Rent talks at halls and the Union. I also hope to provide the necessary support to student's quires regarding the security of bike sheds in front of halls.

Why does what I'm doing matter to students, and how can they get involved? (As above)

Students have the right to be fully informed on their rights as tenants and to receive support on pending issues. Anyone can get involved via sharing important information and supporting the Curcuit/Washstation petition. I and Class Gift's President are working on establishing a program aimed specifically at accommodation aid, which will run on the base of student's involvement. As this progresses further, I will be able to provide additional information.

SRC Member for First Years – Polina Sevastyanova

"What have I done since my last report?"

> I completed my undercover open day investigation by going on open day tours to evaluate the experience for St Andrews applicants and parents. I found that the problems raised concerning accessibility and exclusiveness weren't really present - the tours had a short and accessible route, and everyone was very helpful.

> As a follow up, I am investigating department tours, specifically whether direct entry applicants within the appropriate departments can interact with students that have done direct entry. This was the case when I come on my opening day and I found it helpful, so I am contacting school presidents about the organisation of this.

What progress has been made on my manifesto? (if applicable)

My current goals are unrelated to my manifesto

If you've made progress, great, if you haven't, explain why and what you're doing instead.

What do I hope to achieve by next report? (What it says on the tin)

> Encourage and work with school presidents to organise events for opening days for direct entry applicants as mentioned above.

> Improve the distribution of information about healthcare, and the existence of Health Hub.

Why does what i'm doing matter to students, and how can they get involved? (As above)"

Direct entry is an important decision for people and it's important for applicants to talk to people who have done it. Also people are unaware that health hub exists and a lot of people are confused about how to get emergency healthcare.

SRC Member for Gender Equality – Leonor Capelier

What have I done since my last report?

I have held another meeting with representatives of the gender-based societies to organise a panel discussion and fundraiser for Reclaim the Night. Now we have a guest speaker from Fife Rape and Sexual Assault Centre confirmed as well as other local charities expressing an interest. We have set a date for the panel discussion based on why tackling SGBV matters in St Andrews for the 19th November and I am currently in the midst of booking a space. The bake sale has been booked for Friday 22nd in the evening.

We decided that during the Gender Equality festival we will put on an event titled "Reclaim the Dancefloor" where we do a sponsored 12hr dance session in 601 during the day to raise money for FRASAC.

Following the SGBV working group session, we decided on a campaign to have external events such as the fashion shows have some form of SGBV training like GotConsent in their contract. I am going to work with Jamie as well as the other heads of gender-equality societies to organise this.

I attended the societies networking event where I was made aware that some societies have difficulty in getting women, non-binary and trans to attend their events. There, I raised awareness of the gender equality festival taking place at some point next semester.

What progress has been made on my manifesto?

Enforcing more successful collaborations between societies.

Facilitating access to events for female-identifying groups.

Raising awareness of the prevention of SGBV through interactive events.

What do I hope to achieve by next report?

I will attend a pronoun consultation meeting with the Proctor alongside Parker, Flora and Shaina.

I will create an info sheet on how to widen access to events to female-identifying students.

I will have the panel discussion booked, speakers confirmed and presentation outlined to guide the discussion.

Why does what I'm doing matter to students, and how can they get involved?

Facilitating student participation in the discussion around SGBV.

Widening access to events which have been male-dominated.

SRC Member for Racial Equality – Zoe Ruki – Submitted late, no reason given

Nothing to report

SRC Member for Students with Disabilities – Emily Muller

"What have I done since my last report?"

I have continued to revise my disabilities subcommittee draft, met with student services regarding the implementation of more professional support services for disabled students and polled the 'Disabilities in St Andrews' group to demonstrate the importance of such a group to faculty.

What progress has been made on my manifesto?

I have been working on implementing more supportive services!

If you've made progress, great, if you haven't, explain why and what you're doing instead.

N/A

What do I hope to achieve by next report?

I did not get to meet with Flora regarding the subcommittee draft as she was ill so I hope to have a good talk about that this week and continue to revise. I also hope to have scheduled another meeting with student services!

Why does what i'm doing matter to students, and how can they get involved? (As above)"

It matters because if you stay engaged and communicate your needs to me I'll give it my all to implement positive change for all of us!

SRC Member for Student Health – Emma Rose Walsh – No report submitted

SRC Member for Widening Access and Participation – Britt McArdle

What have I done since my last report?

The event collaborative event I've been working on will be taking place on Wednesday 16th October! It's confirmed that Wellbeing, Tea Society and Lifers will be taking part, and by the time of this council I should be able to confirm whether Peer Support and Equal Opportunities will also be joining.

CAPOD have put me in touch with Margaret Adamson regarding the technical side of setting up a Widening Access network. I plan on meeting them in person alongside Flora and should be able to provide more updates very soon.

I've also attended the usual Wellbeing and Equal Opportunities meetings.

What progress has been made on my manifesto?

I'll be meeting CAPOD soon about setting up a Widening Access network, as soon as we've worked out a time that works for them, Flora and I.

As I said last week, I'm also ensuring to keep up to date with the Albany Park development, and will do my best to ensure that the concerns of students from low-income / other WAP backgrounds are considered by everyone involved in building the new accommodation. I've had some feedback from individuals regarding specific concerns about the development and I'll ensure to compile these, as well as to encourage them to attend the student consultations.

What do I hope to achieve by next report?

I'm hoping to have a definite date and time sorted with CAPOD to speak with them about the WAP network, for which I will be working on developing my existing plans to make my ideas as clear as possible. I will also speak with the rest of Equal opportunities to see whether they have their own ideas for how the network should function.

Due to illness and being incredibly busy I've not had chance to set up a meeting with those interested in the Albany Park development - this is definitely a priority by the time of my next report.

Why does what i'm doing matter to students, and how can they get involved?

It matters because people from WAP backgrounds deserve the best from their university experience, and there's still a lot of work to be done to make St Andrews an inclusive, affordable (or at least more affordable) place! Things like promoting wellbeing, providing information on helpful resources such as bursaries, and advocating for affordable accommodation, are important for everyone, irrespective of their background.

Anyone can get involved with as much or as little commitment as suits them just by getting in touch with me about anything I'm working on, or anything they'd like me to work on! Email: bs200 Facebook: Britt McArdle

Arts and Divinity Faculty President – Sophia Rommel

What have I done since my last report?

I attended EduComm, which was a rather quick meeting. We prepared our agenda points for the School Presidents' Forum (which, by the time this report is read, will have already happened). In the Forum, we will discuss training staff members as wellbeing/mental health reps in all Schools and Departments, the Careers Centre, and MEQ questions.

I also met with several School Presidents (e.g. Medicine, IR, Biology, Economics, Art History, History, Management, English) to discuss certain aspects of their role that they wanted to talk about. Regarding English, Amy and I are currently working on an SSCC-related issue. Regarding Economics, the School President is attempting to improve the support students get regarding essays, as she finds the current lack of support to be connected to the low dissertation rate within the School. Regarding Management, Amy and I are currently dealing with a HR issue. Art History, History, English, and Classics also hosted their Humanities Internship Fayre, which was great.

Moreover, I confirmed with Prof Woodfield's PA that both Dennis and I will meet with Prof Woodfield on the 19th of Nov regarding the People's Strategy and Race Equality Charter Group.

What progress has been made on my manifesto?

All Class Rep training are now done (amazing job, Amy!) which means that the 'Class Rep' section of my manifesto has been pretty much completed. I have put the two ID4000-level reps in touch and sent the Arts rep the Class Rep booklet.

Other than that, I've been continuously supporting the School Presidents, helping Amy out with some tasks, and working with Dennis on wellbeing reps and a host of E&D initiatives.

What do I hope to achieve by next report?

I hope to have met with Amy to touch base and discuss some upcoming events we have in mind. I would also like to meet with both Dennis and Amy, or just chat virtually, in order to set up a post-ILW EduComm social, as the School Presidents have expressed interest in this and I think it would be a wonderful way for our group to continue bonding! Lastly, I would also like to meet with Dennis to discuss the ID modules' SSCC (including how to structure them, when they take place, who should be present, etc.) - it may be beneficial to have Amy attend this meeting, too.

I would also like for the Arts/Div FP and Sci/Med FP roles to become even more visible in the University community. I was thinking about asking School Presidents to send out our Office Hours, so students know where they can find us. Although I feel like we have done a good job connecting with and supporting the School Presidents, and meeting many students, I think we could do more to reach out to the student body at large.

Why does what I'm doing matter to students, and how can they get involved?

A lot of what Amy, Dennis and I do is focused on education, which directly impacts the students. As always, anyone who has an interest in any of the above initiatives and events I have mentioned is welcome to contact me at artdivfp@.

Science and Medicine Faculty President – Dennis Goodtzov – Report submitted late, reason given and accepted

What have I done recently?

Together with Chemsoc, astrosoc, PhySoc and neurosoc I'm helping organise "Queer Academia, LGBT in STEM" an event where 4 LGBT speakers from different points in their career give an insight into their research/work and their experience in their respective fields. I have applied for an education discretionary fund and helped organise a venue. Prospective date is November 6th in the Arts Lecture Theater. (Shameless promo: there will be a wine reception).

Manifesto Progress:

I'll be joining Sophia for the meeting with Dr Woodfield in November, following a point from my manifesto about further improving and keeping a high standard of equality, diversity and inclusion within the SciMed faculty.

What I hope to do in the foreseeable future:

Currently working with Amy (Physics SP) on a new design for the general well-being posters in the school of physics, with all the info about the student services available listed. If anyone would like the template for their schools shoot me an email at scimedfp@.

SRC Postgraduate Academic Convenor – Emma Whitefield

"What have I done since my last report?"

I have attended numerous meetings including the Postgraduate Research Committee (with the DoPGRs for each school, proctor and provost), The Learning and Teaching Committee (with the provost, associate deans, and directors of teaching), the

Education Committee, and the PG society meetings. The PG Reps have been trained! And the PGR and PGT exec forums have been scheduled with the appropriate deans, proctor, and provost. These invites will be shared next week once confirmed by each position in attendance.

The PGR Committee and LTC were very interesting as the DoTs and DOPGRs heard and thusly gave feedback on presentations regarding the mental health and accommodation strategies. We were able to discuss what specific issues related to the postgraduate committee which will be fed back to the working groups on the strategies. Affordability of housing and mental health support being the two biggest issues discussed.

What do I hope to achieve by next report? (What it says on the tin)

The PG Reps will have selected their Exec reps who will then be invited to the upcoming forums. I will be sending out an email to PG Reps with a brief introduction on the types of concerns they can be feeding back to me and sending along the links so they can access the minutes of the committee meetings I am attending (where appropriate). I will attend the regularly scheduled meetings for the upcoming weeks and be prepping for the PGT Exec Forum and putting out a call for papers in the next fortnight.

Why does what I'm doing matter to students, and how can they get involved? (As above)"

Luckily, I have been able to do some advocating for both current and future students as we consider the university strategies on mental health and accommodation moving forward. It's been a unique opportunity. I have not been putting out any fires, so most of my work has been looking forward.

SRC Postgraduate Development Officer – Ana Maria Neferu

Nothing to report, other than having attended my usual weekly meetings.

SRC Member without Portfolio – Rowan Wishart

"What have I done since my last report?"

Not much - been through the tweets to double check I've not put anything sensitive in. Particularly sabbs if you say something in your report that you don't want on twitter let me know.

What progress has been made on my manifesto? (if applicable)

N/A

If you've made progress, great, if you haven't, explain why and what you're doing instead.

Most of my job is socials - so, planning those.

What do I hope to achieve by next report? (What it says on the tin)

Solidify plans for a social. Probably going to plan one for after the next joint.

Why does what i'm doing matter to students, and how can they get involved?
(As above)

While they can't really get involved with my job, it's important I'm a friendly face for people outwith councils. By keeping the twitter and Facebook updated I'm hoping to keep people informed.

Principal Ambassador – Ben McAuley

"What have I done since my last report?"

(This will be along the lines of stuff that goes in generally)

1. In week 3, we held our second Visiting Day. We used the feedback from the first Visiting Day to refine several aspects of the day including Registration, pushing Hall tours, and giving more guidance to Student Ambassadors on the North Haugh.
2. In week 4, I ran 6 situational training sessions for Ambassadors. We covered some of the most difficult questions that arise on Visiting Days; and situations such as supporting prospective students with disabilities or dealing with badly behaved children on summer schools. This was brand new this year, and the feedback was very positive. Next year's Principal Ambassador could even include this in the initial training at the start of the academic year, to streamline the training process.

What do I hope to achieve by next report? (What it says on the tin)

Survive the next two visiting days

Why does what i'm doing matter to students, and how can they get involved? (As above)"

Apply in semester 2!

Rectors Assessor – Camilla Duke

What have I done since my last report?

Since my last report, I have interviewed candidates to join the Rector's Committee and chosen our two new members. I have also done some strategizing with Polis, the Community Relations Officer, and the President on voter registration in the community. We attended the School of Classics' Democracy Past and Present event and registered a few voters there as well. I have also launched an essay competition in conjunction with the J.M. Barrie Literary Society called the Rector's Challenge in honour of the centennial of J.M. Barrie becoming Rector of St Andrews. More information on this can be found on our Facebook page.

What do I hope to achieve by next report?

Next week, Jamie, Amy, and I will be attending University Court and updating Court members on our work over the past few months. I will provide an update at the next councils meeting on this. I also hope to continue making progress on our voter registration efforts.

Why does what i'm doing matter to students, and how can they get involved?

I would welcome anyone who would like to share information about the Rector's Challenge. And, as always, if any subcommittees or societies would like to get involved in our voter registration efforts, please get in touch!

J 19-2 – Motion on Removing Subcommittee Committee members

Owner: Jamie Rodney

To be enacted: Upon acceptance at University Board

To be reviewed: 15/10/20

Councils notes

1. Complaints by Councillors about inactive subcommittee committee members have been a long-lasting issue for the students association.
2. Some Subcommittee committees already have mechanisms for removing inactive members, while others do not.
3. Among Subcommittees that do have mechanisms for removing members, there is a wide degree of variance on how these mechanisms work.

Believes

1. That being a committee member of a Subcommittee committee of the Student's Association is a privilege, and comes with responsibilities to perform one's duties adequately.
2. That there need to be clear consequences for those who fail to uphold these responsibilities.
3. Mechanisms for removing subcommittee committee members need to be consistent across all Subcommittees.
4. Any mechanism for removing subcommittee committee members should give them an opportunity to improve before moving to remove them.
5. All members removed from committees should have the right to appeal if they are dissatisfied with the decision to remove them.

Councils Resolves

To report the following amendments to the Laws of the Association to SAB with the recommendation that the same do pass:

1. To add to Chapter Six of the Laws a section on "Removing subcommittee committee members" and update accordingly.
2. To grant Councillors the ability to remove members of subcommittee committees if they fail to perform their duties as codified in the constitution, or frequently miss meetings without adequate reason.
3. That Councillors can only remove subcommittee committee members after a warning has been given, and after consultation with the relevant sabbatical officer.

4. To allow subcommittee committee members to issue a vote of censure in another member if there is a three quarters majority of all committee members including the convener. Votes of censure can advise the removal of a member, with the final decision being made by the sabbatical officer and convener.
5. That any subcommittee committee member removed by shall have the right to appeal to the Student's Association Executive, who will make the final decision regarding their membership of that committee.
6. In cases where a subcommittee head is also a sabbatical officer, then the decision to remove underperforming members shall take place in consultation with two other sabbatical officers.
7. Where subcommittees have existing procedures for the removal of underperforming members they may, at the discretion of the relevant sabbatical officer and subcommittee head, use these rather than the procedure referenced above. The removed member retains their right to appeal to the Executive, who shall make the final decision in all cases.
8. The above procedures only apply to subcommittee committee members who are not elected by cross-campus ballot, as listed in Chapter 7 of the Laws.

J 19-3– Motion addressing issues raised about laundry providers in halls of residence

Owner: Jamie Rodney

To be enacted: Immediately

To be reviewed: 15/10/20

Councils Notes

- 1) There have been frequent complaints by students about the quality and price of Circuit Laundry and, laterally, Washstation Laundry both in University Halls and non-University managed accommodation such as Ayton House.
- 2) A more detailed summary of complaints are detailed in the petition attached as an appendix to this motion, but the majority centre around cost, poor service, and the top-up system being unnecessarily difficult to use.
- 3) These complaints have been echoed by students and Student's Associations at other Universities around the country.
- 4) A petition by students calling on Circuit and Washstation Laundry to improve their service has garnered 345 signatures as of the time of writing.
- 5) Issues with Circuit and Washstation have also been raised in student publications such as [The Record](#) and [The Stand](#).

Councils Believes

- 1) Good laundry service is a basic requirement for all students.
- 2) At present, many students feel that such a service is not being provided.
- 3) That the fault in this situation lies not with the University of St Andrews, Residential and Business Services, or with individual Residential Service Managers, but with the companies providing laundry services.
- 4) Circuit and Washstation deserve to be held to account for the price and service offered.

Councils Resolves

- 1) To set up a working group responsible for liaising with affected students and communicating their problems to Circuit and Washstation
- 2) To communicate with other Students Associations in Scotland about joint-up campaigning.
- 3) To share and promote the petition on social media channels.
- 4) To include mention of laundry issues in the Students Representative Report to University Court in January.

Proposed:

Joseph Luke - (Senior Student, St Regulus Hall)

Stella Maris - (Senior Student, St Salvators Hall)

Ryan Lunney - (Senior Student, John Burnett Hall)

Conor Straub - (Senior Student, Andrew Melville Hall)

Victoria Briggs – (Senior Student, MacKintosh Hall)

Appendix A

Text of the Petition to Circuit and Washstation

“As the two providers of laundry services to the University of St Andrews, we are writing today to notify you of our discontent with the services tendered on your behalf. Below follows a list of our complaints:

Top-ups can only be made in multiples of £5. This makes it almost impossible to use up the total credit on a given card, since the cost of washing/drying clothes is not to the nearest £1.

Card dispensers break often and when they do, fixes and replacement cards take too long to arrive. This leaves new residents unable to access laundry services.

Customer service is slow and unhelpful, and the support services are too far removed from the problems they are supposed to address.

The cost of the service provided exceeds the quality of the laundry machines and their maintenance.

In the light of these complaints, we ask you to address these issues as soon as possible.”

J 19-4 to update Chapter sixteen: SSC Design Team The SSC note:

1. The current SSC Design Team constitution, does not allow Design Team to refresh the committee when a member is not fulfilling their role as stated in Chapter sixteen.
2. The current SSC Design Team constitution does not have a wide enough scope to reflect the work that we do more thoroughly.
3. The current SSC Design Team constitution does not contain the position of Project Manager

The SSC believes:

1. The SSC Design Team would benefit from a procedure to remove people, the committee when they are not fulfilling their roles to aid the smooth running of the committee as a whole and to allow Design Team to continue to enact its mission to the best of its ability.
2. As the SSC Design Team provides a service to other committees and already struggles to build volunteers on the committee, it is vital that everyone who is on the committee is fulfilling their role to ensure that the rest of the committee is able to function efficiently to provide the best services possible.
3. The SSC Design Team believe that it is in the best interest of the committee to not structure this as a vote of no confidence as this would put significant pressures on the committee as a whole and during the period leading up to this would significantly reduce the ability of the committee to continue to fulfil projects and its wider role. Further as some parts of the committee are further separated from others e.g. the designers from the marketing team they will not always be able to see the full effect of one half of the marketing team for example not performing their role, especially if the other part of the role is being picked up by the other member.
4. The SSC Design Team's constitution does not reflect the true scope of the activities that we engage in and should be updated.
5. The SSC Design Team has grown significantly in number of projects: 2 years ago we completed 29 projects, currently so far this year we have completed 17 projects and have a further 23 projects being managed
6. The role of The SSC Design Team Vice President includes helping the Convener, managing the volunteers and mentor scheme, as well as all of our projects. The introduction of a Project Manager would help to both improve the efficiency of Design Team whilst also giving the Convener and the Vice President more time to work on the mentor scheme as well as supporting the marketing, photography and events team within the SSC Design Team.
7. This will allow us to meet the demands of our expanding number of projects, events, workshops and outreach programs whilst also improving our design project clients experience.

The SSC resolves:

1. To update Chapter sixteen of the Laws to update the current SSC Design Team constitution (Appendix A) and replace it with Appendix B.

J. 19-5 Motion to Further Address Hate Crimes and Incidents in St Andrews
Owner: Shaina Sullivan

In Effect From: Immediately

Review Date: 15th October 2019

Notes

1. Motion “J. 19-2 Motion to Address Hate Crimes and Incidents in St Andrews” (Appendix 1, hereafter ‘J. 19-2’) was passed by the 2018-2019 Joint Councils on 19 th February 2019.
2. J. 19-2 resolved to create additional training slides for student representatives but none were implemented this academic year
3. J. 19-2 resolved to co-opt a member to the Societies Committee to oversee more extensive training and monitor adherence to the motion’s resolves, including referring students to the disciplinary committee and signposting individuals who are involved with disciplinary incidents, but no member was co-opted this academic year
4. J. 19-2 resolved to mandate societies and subcommittees to include specific text in their event descriptions, and for the aforementioned co-opted member to monitor adherence to this mandate, but no member was co-opted this academic year and adherence has not been monitored

Believes

1. That J. 19-2 addresses an important issue in St Andrews but has procedural issues affecting its implementation, thus why the resolves have not been adhered to
2. That student volunteers should not be made to hold the responsibility and liability of disciplinary referrals and follow-up signposting
3. That mandating societies and subcommittees to include specific text in their event descriptions requires an undue and unrealistic amount of subsequent monitoring for a student volunteer to undertake

Resolves

1. For the incoming and outgoing Societies Officer, Director of Student Development and Activities, Director of Education, Association LGBT+ Officer, and any other relevant parties to hold a meeting prior to Society President, School President, and Association Councillor training in May to ensure the new slides are added and consistent across trainings for different representatives
2. For this training to include encouraging societies and subcommittees to include the following text to their event descriptions: “Our event is a fully inclusive space and follows the Students’ Association’s zero tolerance policy towards discriminatory and hateful speech and actions.”
3. For the Societies Officer and Director of Student Development & Activities to use their appropriate channels to encourage society committees to attend further trainings outside of the trainings mandated by the Affiliation Agreement
4. For the Students’ Association and the Students’ Association Joint Councils to condemn hate crime in all its forms.
5. To lobby the University to include the Students’ Association’s Zero Tolerance Policy in the matriculation and re-matriculation processes so that every student is aware of this policy.
6. For Equal Opportunities Committee, Sabbatical Officers, and other relevant parties to work towards easing of process of reporting hate crimes/incidents.

7. For the resolves in the present motion to replace the resolves set forth in J. 19-2.

7. Hate incidents are defined by Police Scotland: "A hate incident is any incident that is not

a criminal offence, but something which is perceived by the victim or any other person to

1. That Societies and Subcommittees have an obligation to provide a safe and welcoming

environment for all members of their groups and attendees of their events.

monitoring adherence to Resolves points 2, 3 and 5.

2. The member will assist the discipline committee in following up with the incident in question by signposting the individual to proper procedures for reporting an incident.

5. Following the co-option of the member described in Resolves; To mandate Societies and
