

Manifesto – Pierluigi Maffi for Postgraduate Taught President

A Stronger, More Connected, and Better Represented Community

Hello everyone, my name is Pierluigi Maffi, and I am currently studying for an **MLitt in International Security Studies** here at St Andrews, having recently completed my undergraduate degree in **European Politics at King's College London**. I am standing for the role of **Postgraduate Taught President** because I would like to be a voice for all PGT students at St Andrews. With experience as a school representative for two years and as president of one of the largest student societies at King's College London, I have learned how to represent diverse groups, bring people together, and make sure concerns are resolved effectively.

My Priorities

1. Representation and Transparency

- Ensure every PGT student feels their concerns are heard.
- Strengthen communication channels between students, the University, and the Students' Association.
- Provide regular updates so everyone knows what progress is being made on their behalf.

2. Academic Support and Opportunities

- Advocate for resources that make a difference: accessible teaching, clear assessment feedback, and stronger academic guidance.
- Push for workshops, networking, and career support tailored to the unique needs of postgraduate taught students.

3. Community and Wellbeing

- Foster a stronger sense of belonging across the PGT community to ensure everyone can thrive in an inclusive environment.
- Promote mental health support and accessible wellbeing services, making sure no one feels left behind.

4. Sustainability and Future Thinking

- Build on my experience working with EY on sustainability and climate change to encourage initiatives that make our University greener and more forward-looking.

Why vote for me?

I bring leadership experience, a proven track record of representing others, and a genuine passion for building communities that thrive. As the Postgraduate Taught President, I will be approachable, proactive, and committed to making sure every student's experience at St Andrews is as enriching and supportive as possible.

Together, we can make the PGT community stronger, more connected, and better represented.
