Security Cost

Security Cost:
Club nights, live music & some other types of events will require a minimum of 3 security staff when held in Club 601 and 5-6 security staff in Stage & Club 601 combined (full venue). This is charged at **£200 based on a 3.5 hour event in Club 601 or Stage and £400 for a 3.5 hour event in the full venue**. These are the minimum security costs. For events longer than 3.5 hours security will be charged at £20 per hour per person deployed.

The final number of security staff required will depend on the number of people attending and the risk assessment for the event. For example a live event on the stage could also require a (pit) barrier, which will be charged at cost.

Please note:
We don't make money from security charges, we simply pass on the cost incurred by your event. We are required by law to have security present at certain events.

Contact:
If you have any questions about security please contact prh@ and our Deputy Building Supervisor Phil will be happy to answer any questions.
